Quality Assurance

At Stylorium Sourcing Ltd, quality is the core!

From the first sample, we take care of the quality at every step. Our highly qualified quality and control/assurance team is always alert to deal with any situation. We identify the key points of each product to anticipate possible difficulties in production.

Our quality department is totally independent from the Merchandising and Production departments, their only goal is to achieve AQL quality requirement. To ensure quality of the products we take following precaution:

- ❖ Measuring garment dimensions.
Specifying tolerances for garment dimensions.
- ❖ Physical tests of buttons, zippers and other accessories.
 - Pull test.
 - Fatigue test.
 - Stretch test.
- ❖ Fabric density & composition test by 4.0 system.
 - Fabric GSM check.
 - Lab testing.
 - Shrinkage checking.
 - Stitches per inch (SPI) check.

❖ Material composition check.

- Color and shade matching.
- Label verification
- Daily production report analyzing
- Data storing and PP meeting presentation
- Packaging inspections.

Conduct the inline and FRI (AQL 1.5 – 2.5) as per buyer manual as well. Stylorium offers a global solution of quality, adapted to the buyer's needs. We also collaborate with the major 3rd party inspection companies (SGS, Intertek, Bureau Veritas) as per buyer's requirement.
